

Beyond analytics at Yahoo

Analytics showed declining DAUs but couldn't answer why.

I conducted an 8 person diary study that exposed an issue in our news feed algorithm. The result led to a navigation update which turned the analytics around. Wether longer term diary studies or one question behavioral sampling surveys I try to always involve qualitative data in my process.

Buy's bulb

Installation

Easing the learning curve of regular u

When I install bulbs for the first time, I want set up to be near instantaneous so I can feel the benefit immediately.

Detailed Features

• Auto connect to network

• Single tap to see response from bulb

• Home/room group visualization

When I turn on an lights, I want it to easier than a light switch so I don't r multiple controls.

Detailed Features

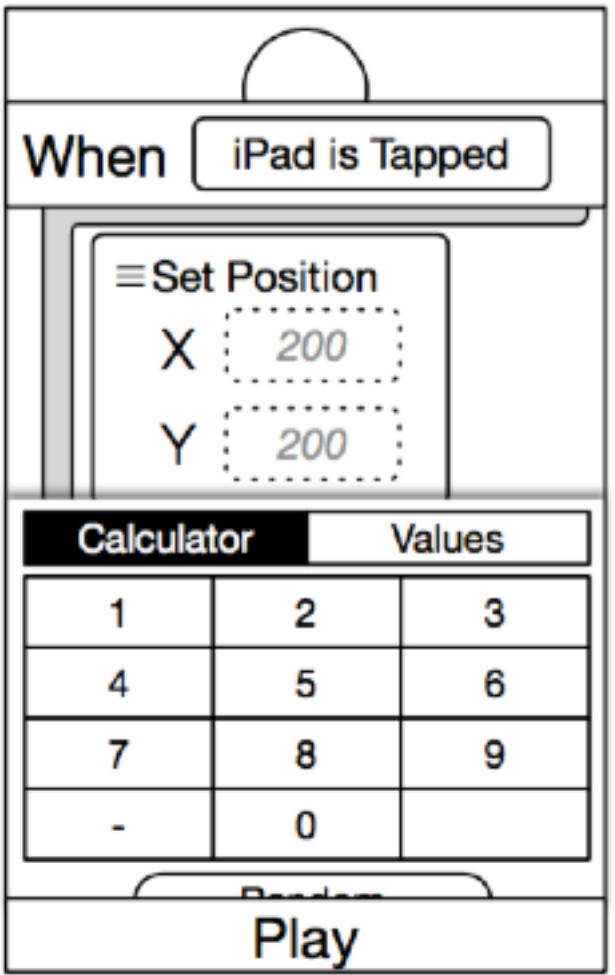

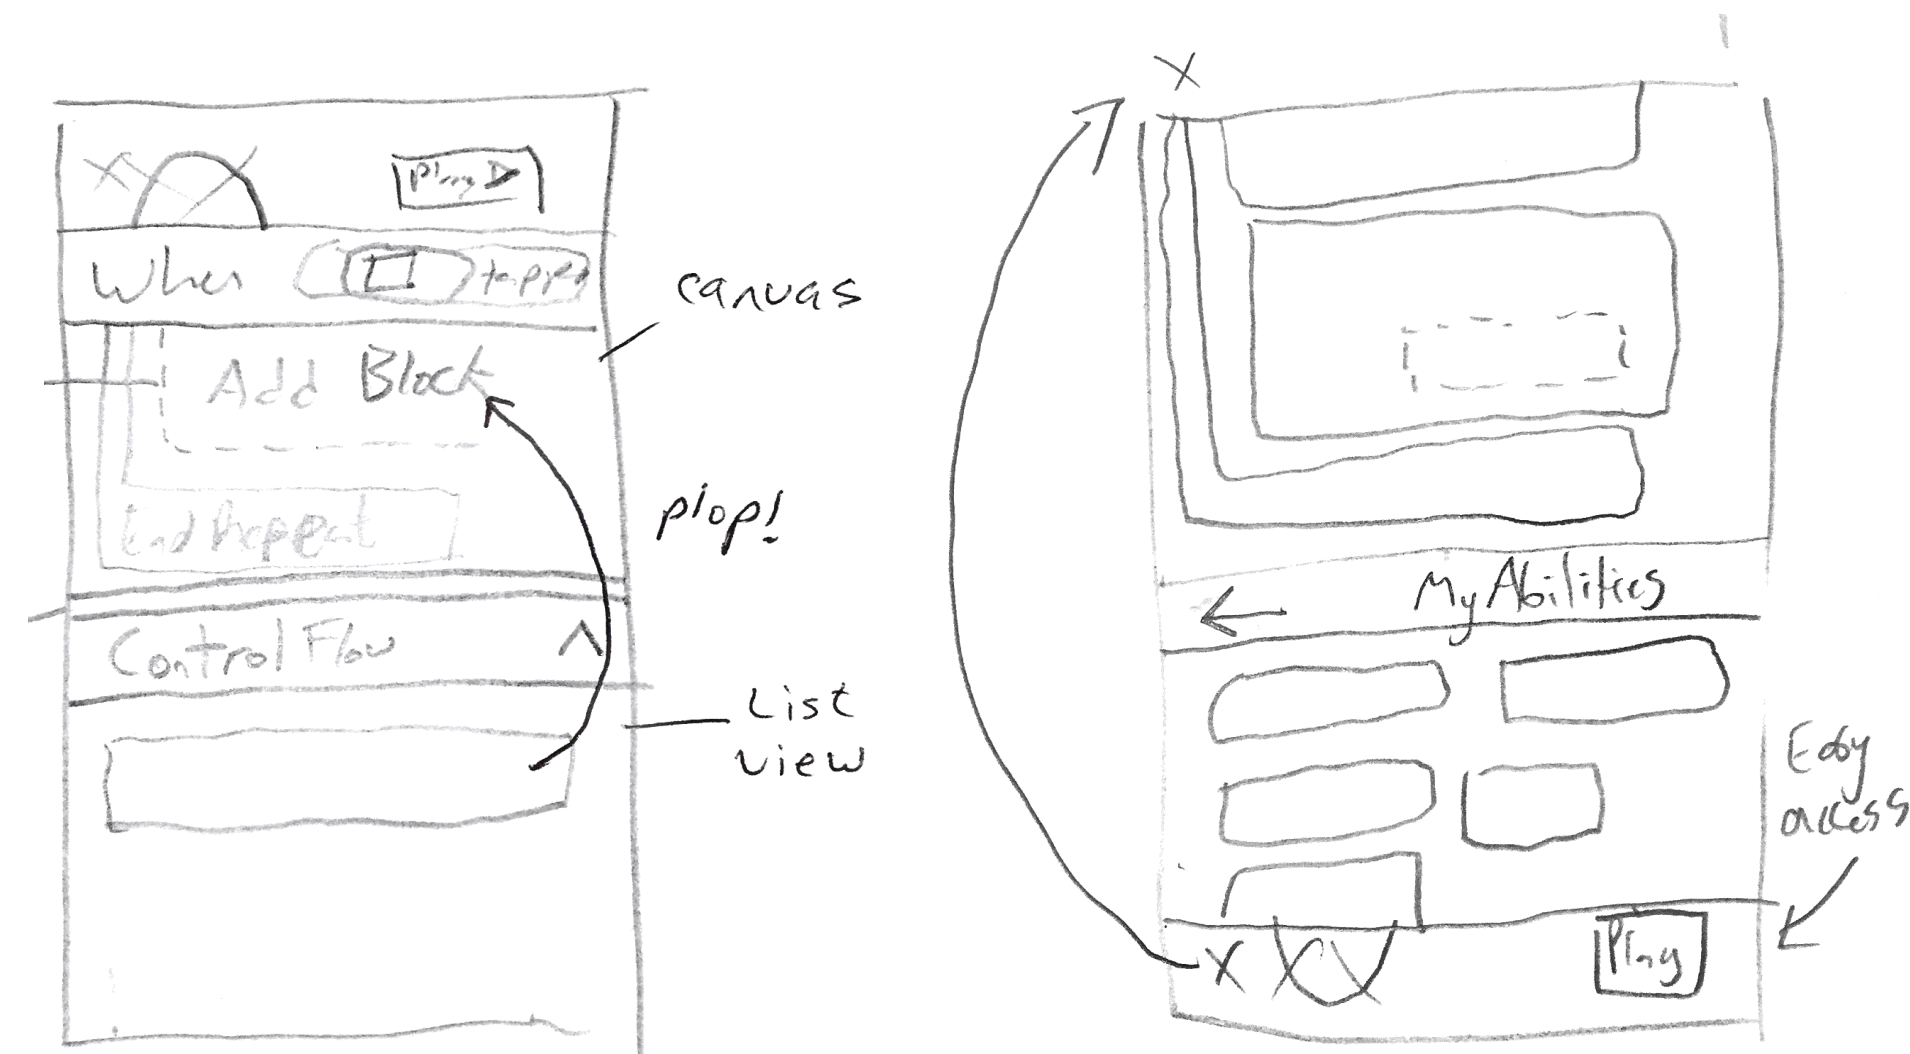

• Interactive Notifications

Lo/Med Fi Team Sketching Sessions

Visualizing ideas is a designer's job. Most of my work begins with sketching LOTS of ideas and following it up with a round of simple testing.

At Plated and Aftonbladet I ran sketch sessions with both technical and non-tech teams to get everyone involved at early stages. The result was a unified vision across teams.
